BUTTERFLIES OR MOSQUITOS?

Florida has an abundant number of lakes that are a significant part of our overall ecosystem. The system of lakes supports a wide variety of life, and most are enjoyed recreationally.

There are two types of lakes – living lakes and stagnant lakes. Living lakes have a source of freshwater coming into them and have a way for water to leave the lake. This exchange of water supports the life of a beautiful lake, including the butterflies and fish that live there, and the tourists and locals that visit for a time of renewal.

By contrast, a stagnant lake has no freshwater coming in or out. There is no inlet or outlet. That lake usually turns to a brown color, is often smelly, and supports undesirable life forms, such as mosquitos. No one wants to visit that lake for refreshment!

I have had moments in my ministry where I have felt stagnant. I felt like I had nothing of value to offer my choir members spiritually, or I was just saying the same things over and over. I came to realize that when nothing of value was coming out, it was because nothing of value was going in. Those were the times when my devotional life waned, or I was not reading something new. I learned that I got into a rut of doing the same music over and over when I didn’t take the time to look at new music, or new ministry ideas.

The state of Florida has several water management districts whose job is it to manage minimum flow and levels to keep lakes and streams healthy and productive. We, on the other hand, have to manage our flow levels for ourselves. Stagnation can creep up on us if we do not make the effort to keep the living word of God flowing into us. Equally important is that we also have an outlet, a place where the word of God can flow from us. This is vital to a healthy spiritual life, as well as a thriving ministry.

It is important to be diligent about our daily spiritual intake. But also important are those special times when we get a serious recharge...like during a summer rain that gets the water moving faster, pulling some of the sludge in the bottom of the river or lake away, allowing room for healthy growth.

For me, our Summer Music Workshop gives me that energizing inflow of the word of God, new music, new ideas from outstanding clinicians, and conversations with new friends who have new ideas and experiences. At the same time it is an opportunity for outflow. Worship services, teaching a class, having a leadership role and conversations with colleagues give me the chance to express my faith and love for God. If you have experienced stagnation at times over the past year, our Workshop will provide the inlet of fresh living water you need to become a vibrant and healthy musician, singer, worshiper or minister.

The Life Enrichment Center where we gather sits on Lake Griffin in Fruitland Park, Florida. It is a healthy, vibrant lake that provides a wonderful setting for our camp, and an important reminder of how we can keep our spiritual life and ministry from becoming stagnant.

I hope I will see you at Workshop in June. I know that you will find all kinds of butterflies there!

WORKSHOP 2020: “Draw the Circle Wide”

Our theme for June 7-12 will be “Draw the Circle Wide.” Our worship and workshop committees are planning for a meaningful time together, full of incredible music and ideas.

I encourage you to think of a person who might not know about FUMMWA and use this month to invite a friend or colleague to workshop with you this year. Now is the time, so they can request funding from their church, apply for our first-time scholarship, or set aside money to pay their way in a few months.

I recently found Victor Johnson’s name in the All-State brochure for the school music conference I was attending. Since there was no picture next to his name, I wasn’t sure if it was our 2019 Adult Clinician. It would make sense to see him at a music workshop, but he lives in Texas, and he also has a name that can get confused with other people. However, sure enough, I ran into him in the hallway before a reading session he was leading. In his own quiet way, he spoke so highly of our workshop in the five minutes we had together before his own presentation. We are so pleased that he will be back with us this summer directing “Voices of Praise”, so some youth will get the chance to work with Victor as well!

The very next day, I found Doug McComas at the JW Pepper booth at the conference, and even met his boss. We are so blessed to have this music company support and help with workshop each year, plus giving us perks like free shipping coupons.

On June 7-12, we also can’t wait to welcome: Dr. Andrew Minear – Adult Choral Clinician – Director of Choral Activities at the University of Alabama, Brian Hehn – Worship Leader – Director of the Center of Congregational Song for the Hymn Society in the United States and Canada, and Claudia Dew – Handbell Clinician – Director of the professional bell choir Capital Bells in Tallahassee.

We are always in need of a variety of volunteers to teach classes for directors and/or choir members in several art forms. We have previously offered classes including visual art, banner-making, altarscapes, photography, sign language, and many more. We are especially interested in offering multi-generational classes for 30-55 minutes on Monday-Thursday of conference week. Please consider your talents and expertise and send your offers of help music@crawfordvilleumc.org

The following thoughts and research are what led to the design of the logo you see here.

A logo for an event is so much more than just a nice picture! It should have meaning, be instantly recognizable, use colors representing what you are trying to communicate, and convey the value of your event by its professional quality. As I worked on designing the logo for the 2020 Workshop, I began to think about obvious things, like the circle, and about some not-so-obvious things, like how do you draw a circle “wide”, because a circle is drawn equidistant from a center point? The following thoughts and research are what led to the design of the logo you see here.

**Draw the Circle Wide**

**Florida FUMMWA Workshop 2020**

Draw is an intentional act... whether it’s putting pencil, pen, or brush to paper or canvas to create a likeness with lines and colors, attracting someone into your sphere of influence so that they become involved in what you are doing, or extending a thought, word, or action to include something or someone that is not always incorporated.

A circle is a basic geometric shape, usually used to enclose, surround, or include. A circle is generally understood to represent something that is complete or unending, as does a wedding ring.

The word “wide” is used as an adverb here telling us how to draw, and instructing us to expand. Expand our hearts to include and love everyone, no matter their ethnicity or proclivities...expand our dreams, dream BIG, to encompass and accept God’s call and plan for our lives, no matter the cost financially or personally....and, to expand our visions to see beyond what our earthly eyes can see, no matter how unworthy or ill-prepared we may feel to accomplish that new idea.

The most familiar circle we see in the logo is the world….our world….this world we live in, which is made up of 7.7 billion people needing Christ, who is represented by the white (representing purity & spirituality) cross. The logo for “Draw the Circle Wide” depicts including the whole world in our thinking and planning with JESUS at the center, a circle of people who have a common interest and are joined in one dream, one vision for the manifestation of that dream (thus all the same color of gold, representing inner wisdom), and who function in the strength that that bond of love, comfort, and support affords, as we, Florida FUMMWA, (seen in the blue and white of our organizational logo) continue to learn how to create an ever-expanding circle of inclusion and love in order to grow into God’s plan!

About Claudia Dew

Claudia Dew, our handbell clinician, is a rare, Native Floridian! Originally from Lake City, she has lived in Tallahassee for the past 38 years. A graduate of the Florida State University College of Music, she is a former High School Choral Director. She has previously served in two United Methodist Churches where she directed Chancel Choirs, Youth Choirs, an Adult Ensemble, led the Praise Teams, and developed graded bellchoir programs. Claudia is the Director of Capitol Bells, an advanced, auditioned community bell-choir in Tallahassee. They just completed their 11th season together! Performing throughout Tallahassee and surrounding areas, they are always looking for new venues to share handbells with a broader audience. Claudia is a member of the Tallahassee Community Chorus, and traveled to the 2019 National ACDA Convention to sing in the premiere performance of Dr. Andre Thomas’ Gospel Mass, under his direction.

Claudia and her husband, John, also run an Airbnb (The Dew Drop Inn) and love meeting FAMU & FSU parents - especially parents of music students! Together, they have 3 grown children, and 3 precious grandsons who call them "Yaya" and "Papa"!
